DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-9 and 12-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsuura et al (5735248).

Figure 2 shows a gas fuel supply system including gaseous fuel in tanks 1, 2, a regulator 8 for decompressing the gaseous fuel, and the recited source pressure control means 9 which is seen to have a membrane, spring, valve in a passing hole, a connection to the fuel and a connection to a pipe from the intake.

Allowable Subject Matter

Claims 10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
